

4K Video Downloader + (Plus)

<https://www.4kdownload.com>

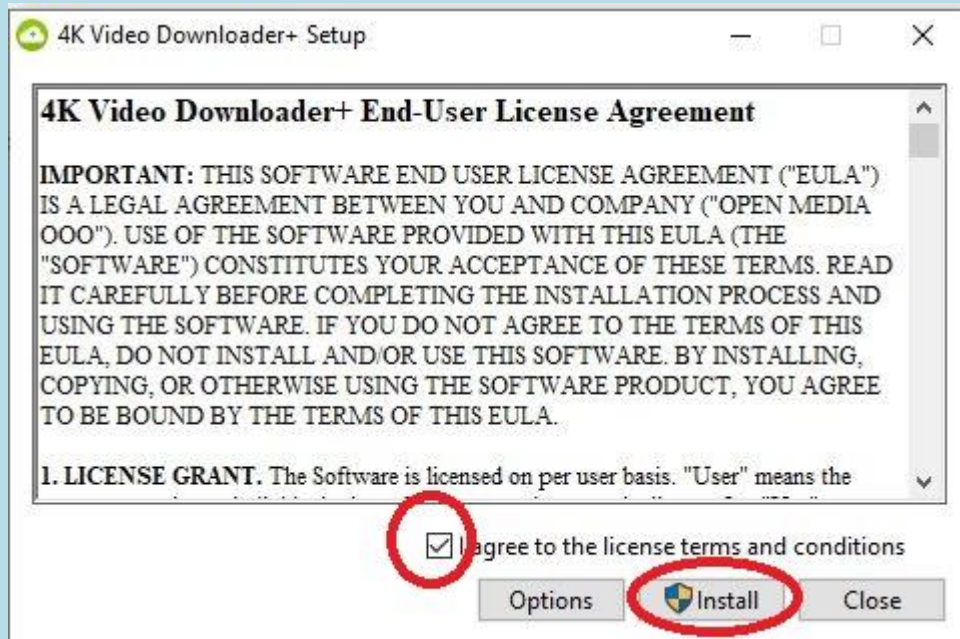

Click on Free Download

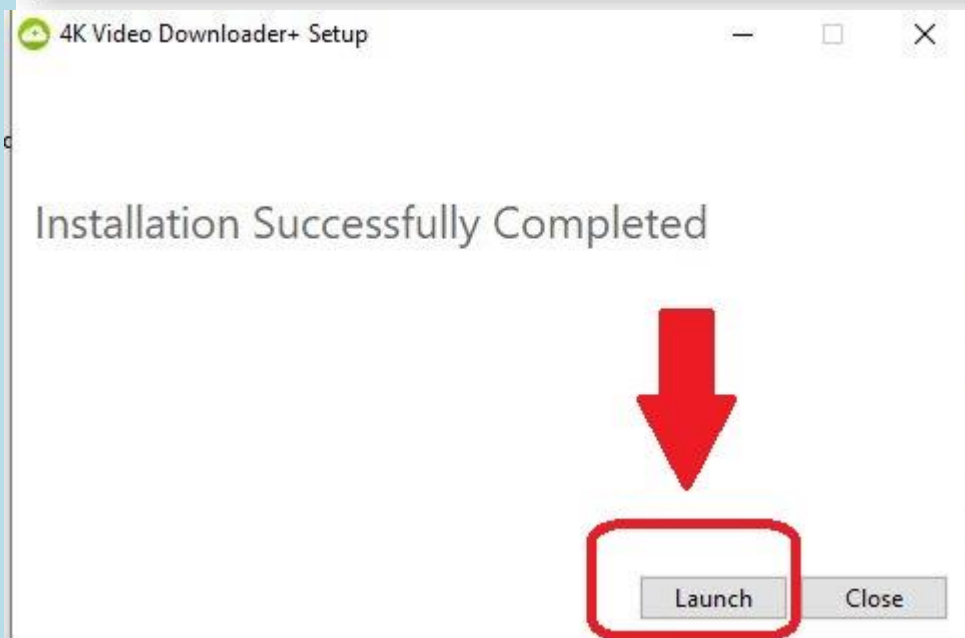

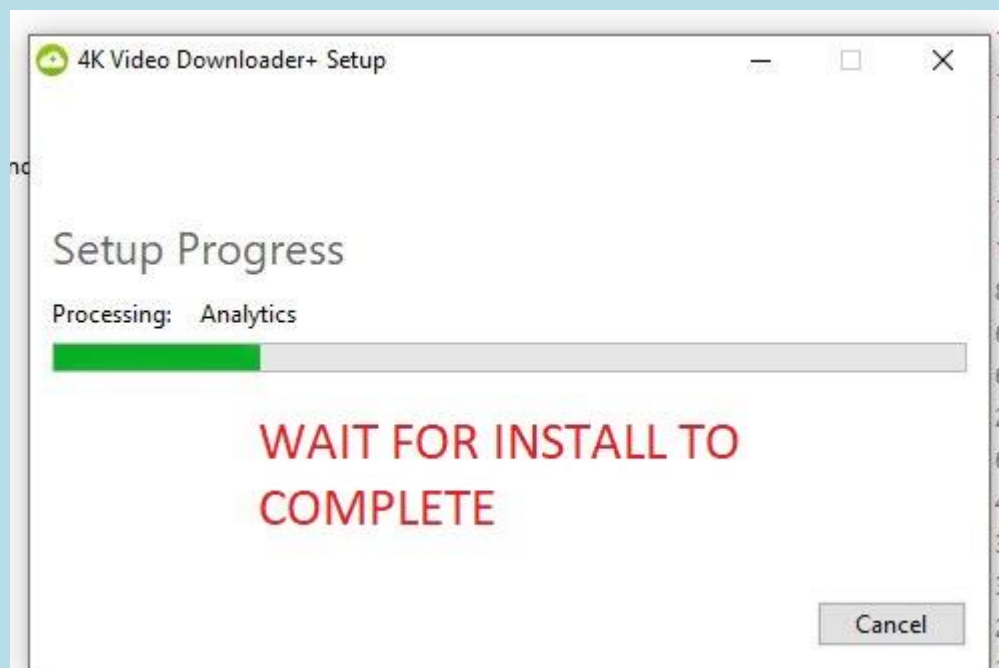

Go to the downloads folder and run the file you just downloaded.

Example of file:

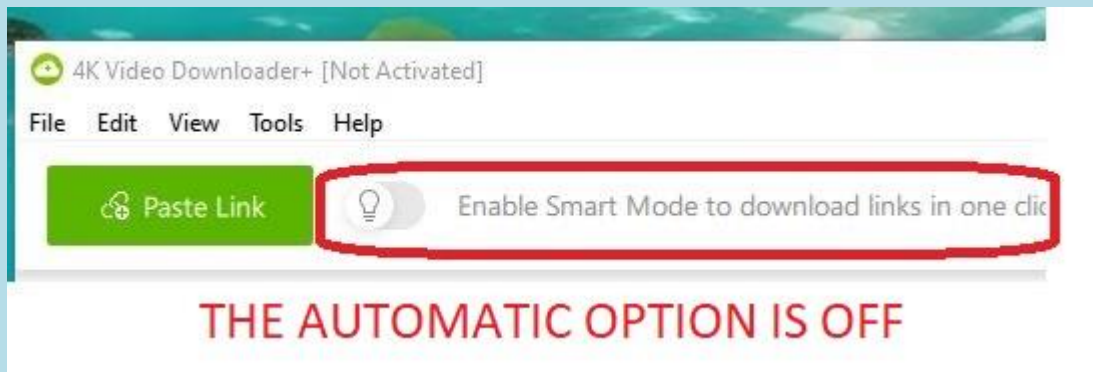

4kvideodownloadrplus_1.4.4_x64_online.exe

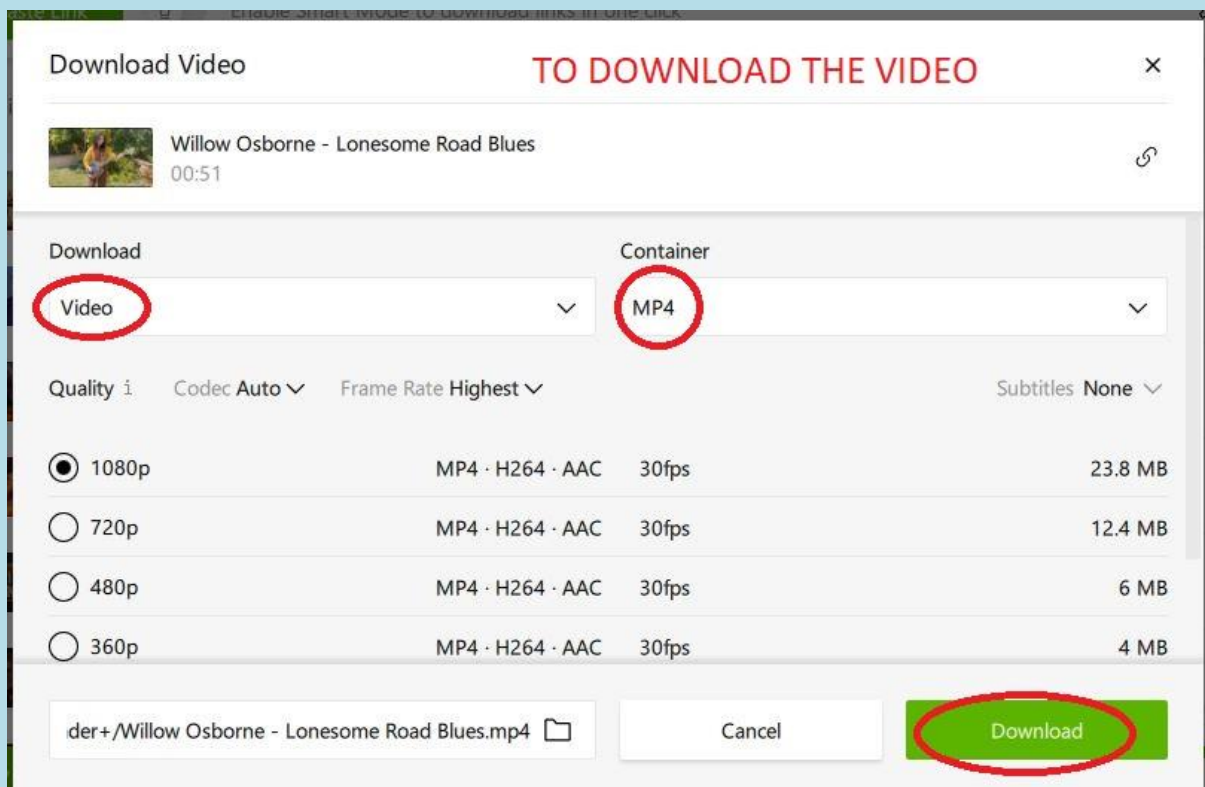

Tic I Agree then Install

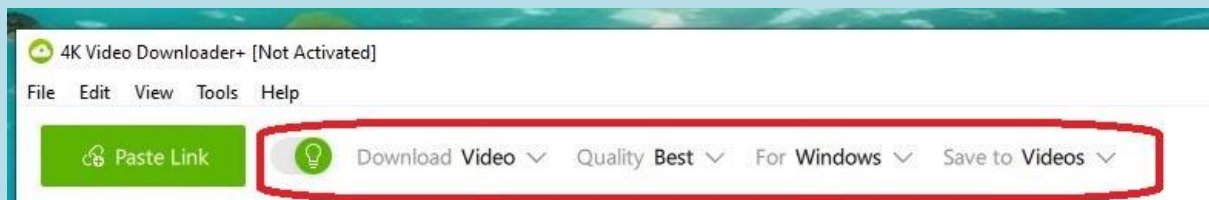

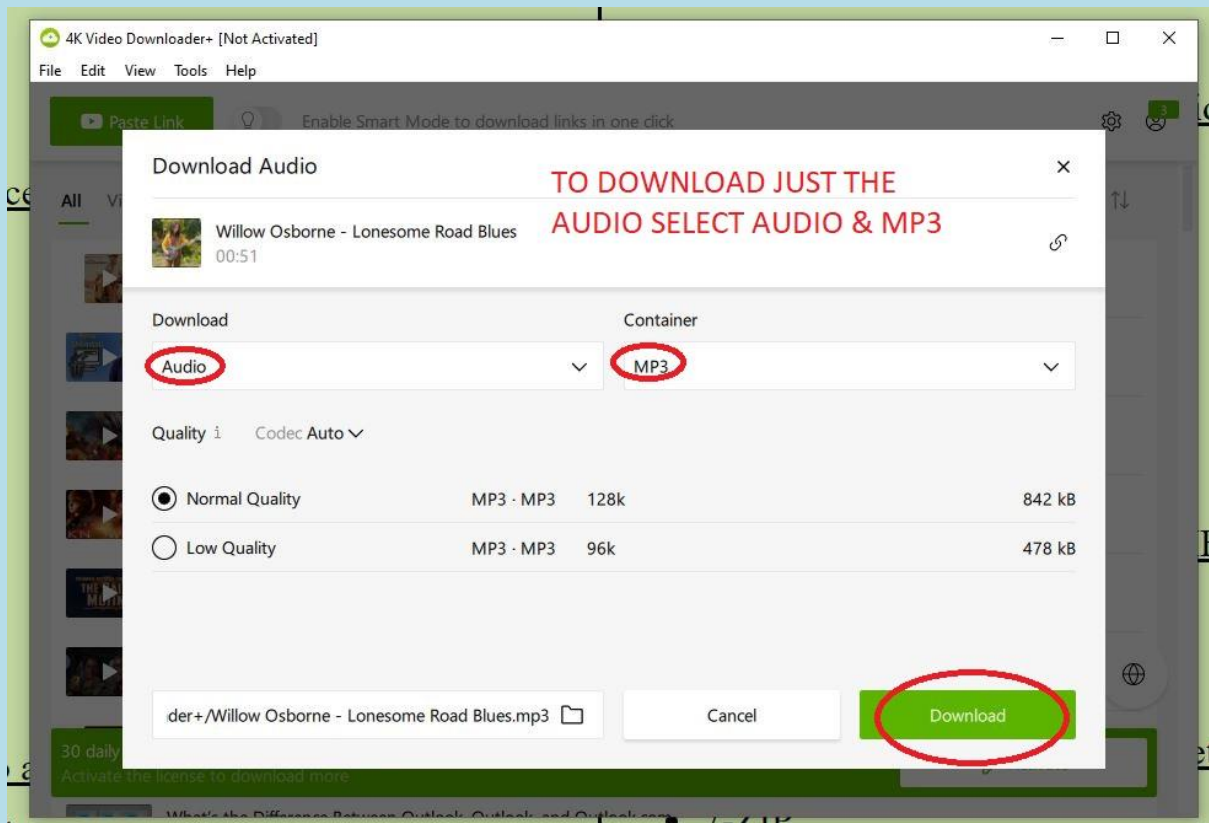

There is a new setting that will automatically make the selections for you as to Video, Audio and Quality.

With this option off you will see these menus:

OR

In this example, the Automatic Option is ON.

You can change the settings by clicking on the \vee
With this option on, clicking on Paste Link will start the download
